

EXECUTIVE ORDER

ENHANCING DENATURALIZATION ENFORCEMENT AND EFFICIENCY

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the Immigration and Nationality Act (8 U.S.C. 1101 et seq.), it is hereby ordered as follows:

Section 1. Policy.

It is the policy of the United States to protect the integrity of the citizenship process by swiftly identifying and revoking naturalization obtained through fraud, misrepresentation, or other unlawful means. To achieve this, executive agencies shall prioritize resource allocation, technological integration, and interagency cooperation to streamline denaturalization proceedings while upholding due process.

Section 2. Establishment of Specialized Denaturalization Units.

(a) The Attorney General, through the Department of Justice (DOJ), and the Secretary of Homeland Security, through U.S. Citizenship and Immigration Services (USCIS) and Immigration and Customs Enforcement (ICE), shall establish joint specialized denaturalization task forces within 90 days of this order.

(b) These units shall include at least 500 additional personnel, focused on investigating and prosecuting denaturalization cases, with monthly targets of 150 to 200 cases prioritized based on national security risks, fraud indicators, and criminal histories.

(c) The units shall develop performance metrics, including case resolution times and success rates, to be reported quarterly to the President.

Section 3. Automated Screening and Data Integration.

(a) The Secretary of Homeland Security, in coordination with the Attorney General and the Director of the Federal Bureau of Investigation, shall implement an integrated database system within 180 days to automate screening of naturalized citizens for potential denaturalization grounds.

(b) This system shall cross-reference USCIS records with criminal databases, tax filings, social media analytics, and international sources to flag discrepancies, using artificial intelligence and machine learning tools for pattern recognition.

(c) Privacy protocols shall be established in accordance with applicable laws to protect non-relevant data.

Section 4. Leveraging Technology for Evidence Collection.

(a) USCIS and DOJ shall partner with private sector technology firms, under competitive contracts, to deploy predictive analytics and automated affidavit generation tools for denaturalization filings.

(b) These tools shall prioritize high-risk cases, such as those involving undisclosed affiliations or biometric mismatches, to reduce manual processing time.

Section 5. Interagency Coordination and Reporting.

(a) The Attorney General shall lead an interagency working group, including representatives from DOJ, DHS, FBI, and the Department of State, to oversee implementation and resolve barriers.

(b) Within one year, and annually thereafter, the working group shall submit a report to the President on progress, including recommendations for further legislative actions.

Section 6. General Provisions.

(a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

THE WHITE HOUSE
